The State Health Department (CDPHE) issued a new public health order on Monday May 31st which allows for more group activities and visiting. This will allow us to have families present at more events and socials.

Complete document of protocols can be found by clicking the following link:

Please remember that we are licensed by the CDPHE and are required to follow their protocols, guidelines, and regulations.

SUMMARY

Visiting is now allowed with few restrictions, especially for fully vaccinated residents and visitors. (We have no unvaccinated residents.) Screening of visitors will still take place, and entry denied to visitors, regardless of vaccination status, who do not pass screening. Unvaccinated visitors are required to wear a mask indoors and schedule their visits. New protocols don't require that fully vaccinated visitors schedule in advance, but we have always appreciated advanced notice of visits, and of course outings.

Fully vaccinated visitors and staff are not required to wear masks indoors.

Group activities and communal dining are now allowed for fully vaccinated residents and visitors. The following is directly from the Residential Care Facility (RCF) Comprehensive Mitigation Guidance document which is linked above.

Group Activities

Fully Vaccinated Residents

May choose to participate in group activities without using a mask or social distancing.

The consumption of food and drink can occur during group activities.

Fully Vaccinated Visitors

Fully vaccinated visitors (i.e., family members, musicians, entertainers) may participate in group activities, facility outings and communal meals. Visitors must provide proof of vaccination.

Visitors that are unable to provide proof of vaccination are restricted from participating in group activities, facility outings and communal dining and should follow visitation guidance.
